*Your partner to implement
 your clinical trials*

For fast, effective inclusion

The **one-stop service** for:

- Assessing trials over-expenses
- Signing conventions
- Following-up on trials

Pharmaceutical companies

The **Clinical Investigation Networks** which cover four major themes:

- Cancer
- Cardiovascular and metabolic diseases
- Neurological & mental disorders
- Inflammatory and immunologic diseases

We make available to you:

- ▶ **Databases** for selection of patients
- ▶ **Technical platforms for biology, imaging, innovative medical therapy, radiotherapy, biostatistics, etc...**
- ▶ **Staff dedicated** to network co-ordination (assessment of potential inclusion in the network, formalising of channels, assistance in the implementation of the trial within the network and activation of centres, follow up of inclusions,...)
- ▶ **Clinical investigation training**
- ▶ **Logistical support** from the clinical research structures of the inter-region (FRC, CIC, CRS, URC, CRB)
